Lenith Waterman  
Seneca Nation of Indians  
12837 Route 438  
Irving, NY 14081

Dear Lenith:

In 2005, we started the Seneca Diabetes Foundation with the express purpose of the lives of the millions who suffer from diabetes, particularly our many Seneca brothers and sisters who fight this battle every day and need our support. Through our work, we have taken significant steps to advance this important cause by helping to educate a new generation of students pursuing careers in healthcare, and raising awareness and needed funds to help in ultimately finding a cure.

Four years ago, the Seneca Diabetes Foundation established a new award to honor the spirit and contributions of one of our founding board members, and someone who left a truly lasting legacy for all Seneca people, Geraldine Memmo. I don't need to tell you about the significant impact Gerri made on our Nation and our people. She was an inspiration, a mentor, and a friend. On behalf of the Seneca Diabetes Foundation, I am honored to announce that you have been selected to receive the 2019 Geraldine Memmo Community Service Award, given in Gerri's honor.

The Geraldine Memmo Community Service Award honors someone who shares Gerri's commitment to giving back. The members of the Seneca Diabetes Foundation board of directors could think of nobody more deserving of this recognition. The Geraldine Memmo Community Service Award will be presented at the 14<sup>th</sup> Annual Chairman's Ball, scheduled for Friday, February 1, 2019 at Seneca Niagara Resort & Casino.

It is with profound respect and personal gratitude that I congratulate you on this honor. We look forward to celebrating your success at the Chairman's Ball.

Sincerely,

Barry E. Snyder, Sr.  
Chairman and Founder
